## KARIN HERZOG FACIALS

### **Glyco Rose Peel**

The ultimate lunch hour facelift. The root to its enhanced performance lies in the ancient art of Acupressure and the benefits of Herzog's patented Oxygen therapy. In this treatment we use our strongest percentage of oxygen (3.6%). This converts to oxygen gas, as do all Herzog's oxygen formulas when applied to human skin. This conversion causes an increase in pressure with the oxygen gas being denser than the liquid. As the cream rapidly self penetrates deep into the dermis it creates an acupressure effect on the face. In conjunction the specific massage technique used in this facial ensures that real energy swirls in and out of each major meridian to ensure that blockages, stress and tension are eliminated and the face is lifted as a result.

**30 mins £65**

### **Oxygen Facial**

Voted "the best facial in the world" by The Times magazine. This is the treatment that most people start with and continue with until their skin is balanced and clear of major congestion. The oxygen goes deep into the skin creating a force and an energy that pushes trapped toxins and congestion up towards the surface for easy extraction. Finally the same oxygen works to heal and repair, results are astonishing.

**60 mins £90**

### **Anti-Aging Facial**

Works on anti-ageing principles, the ideal once a week treatment to maintain your skin. A divine, holistic, hand on treatment with no mechanical intervention. Results give an instant face-lift and radiance that lasts long after you have left the spa, making it a truly unique experience. Using mild fruit enzyme serums, to gently exfoliate, this facial reveals fresh oxygenated youthful skin and is a true age management, skin maintenance treatment. This treatment guarantees long term dividends. Skin looks fresher and instantly vibrant.
